と ころ かがわ国際会議場(サンポート高松シンボルタワー6階)

参加費
無 料

◆Keynote Lecture

[Protein Networks from an Atlas of Proteotypes]

Steve Briggs University of California San Diego
The National Academy of Science USA member

◆Invited Lectures

*[Living the Dry Life:
Metabolic Basis of Desiccation Tolerance in Resurrection Plants]*

John Cushman University of Nevada Reno

*[Activation of Plant Defense Signaling through the Actin Cytoskeleton:
Perception, Signaling and Transcription]*

Brad Day Michigan State University

[Population Genetics Studies of Tropical Rain Forest Trees in Southeast Asia]

Ko Harada Ehime University

[Global Regulation of Pathogenicity Mechanism of Ralstonia solanacearum]

Yasufumi Hikichi Koch University

◆Research Presentations

[Redox-based Regulation of Plant Immune Response]

Yasuomi Tada Kagawa University

[Mechanisms of Rhizobia Penetration into Plant Cells by Vesicle Trafficking]

Mika Nomura Kagawa University

[Flower Color Patterns and Gene Silencing]

Yasumasa Morita Kagawa University

[Molecular Mechanism of Rare Sugar Effects on Plants]

Kazuya Akimitsu Kagawa University

主催：香川大学農学部
農学部 植物ゲノム・遺伝子源解析センター
